Partake in the Nurturing Alchemy of Nature

How did two East Coast sisters ...

ONCE UPON A TIME, TWO SISTERS ARGUED.

After a particularly rousing sibling battle over who looked older, Pauline (*definitely older*) threw a magazine (*printed on recycled paper, of course*) at Pam (*the sensible one*).

The magazine missed hitting Pam.

But...fate intervened and the magazine landed and opened to the classified section, which neither ever read. The first advertisement was for an aromatherapy business for sale.

Pauline made first contact with **Wild Mountain Organics'** creator and a wonderful relationship was formed.

Pam wanted in on the action and an incredible partnership was founded.

Wild Mountain Organics (WMO) was born in Oregon by combining the creator's intuitive connection to plants and her study of natural sciences.

The creator chose her successors knowing they would carry on the product and customer service excellence she fostered. All deal with integrity, honesty, trust, and caring, not only of **WMO's** customers, but also its products, formulas, and evolution.

Pauline studied with **WMO's** creator, and felt confident she and Pam, with their complementary skills, could take over and continue **WMO's** success.

happen upon this West Coast gem?

They continue the tradition **Wild Mountain Organics** was founded on, combining their study of natural sciences with their passion for health of mind, body, and spirit.

As the owners grow and evolve, so too does **Wild Mountain Organics**.

AND THEY WORKED TOGETHER HAPPILY EVER AFTER.

All relationships should be this perfect.

SURE!

Only part of that story is true. We leave it up to you to decide....

What relationship is perfect?

The relationship **Wild Mountain Organics** nurtures with your mind, body, and spirit.

What makes our products unique is our commitment to using only pure fresh flowers, herbs, and flower essences. Many of the plants are harvested in the wild or grown organically. No synthetic fragrances are ever used. No petrochemicals or animal products are used in any of our formulations.

*We welcome you to **Wild Mountain Organics**.*

ENJOY!

Herbal Body Polish

Clean from the inside out with pure New Zealand sea salts and emollient rich plant and flower oils. Polish away dull skin and recapture your skin's youthful glow. Our Herbal Body Polish is wonderful for use all over but it may also be used for trouble spots like hands, feet, and elbows.

- Citrus (CI)
- Lavender/Mint (LM)
- Rose (RO)
- Peppermint (PM)
- Yogi Blend (YB)

(Yogi is a lavender, peppermint, pine, birch blend)

\$20 - 8 oz. jar (#101A) \$12 - 4 oz. jar (#101B)

Tip:

Toss a couple teaspoons into your bath for a soothing, relaxing, or invigorating soak. Leave it on your sink or in your tub for use whenever you need it!

Herbal Hand and Body Lotion

This delicious combination of oils has the added benefit of pure flower essences which enhance your spiritual well being and soothe and moisturize your skin. Light in texture with rich, lasting protection. Our scents complement our Herbal Body Polishes.

- Citrus (CI)
- Lavender (LV)
- Rose (RO)
- Peppermint (PM)
- Yogi (YB) (Yogi is a lavender, peppermint, pine, birch blend)

\$12 - 8 oz. bottle (#102A) \$5 - 2 oz. bottle (#102B)

Pauline: "Hmmm. Polish...Makes it sound like it will..."

"...Keep it clean." Pam

Fresh Floral Spritzes

These Fresh Floral water sprays are created during the distillation of essential oils. They will leave you feeling refreshed without being over-fragranced.

Good for facial cleansing and hydrating, cooling of burns and acne, freshening linens and sheets, and freshening your body.

Lavender (LV)

Rose (RO)

Orange Blossom (OB)

\$10 - 4 oz. bottle (#103)

Tips:

- ◆ Spritz on your pillow before bed for a relaxing sleep.
- ◆ Spray on your furniture to refresh and cleanse (it won't stain or irritate skin or fabrics).
- ◆ Spray on your car seats before a road trip or before heading to work.
- ◆ Spritz on your face before using one of our moisturizing creams or elixirs.
- ◆ Spray the air surrounding you to help prevent a cold.
- ◆ Spritz yourself throughout the day to revitalize, relax, or renew.
- ◆ To beat the heat, refrigerate and spritz throughout the day or keep in your cooler at the beach or outdoors for a quick pick-me-up.

Pauline: "The spritzes work well if you have dogs..."

"...the four- or two-legged kind." Pam

Lip Balm

With a luscious blend of infused almond oil, beeswax, honey, aloe vera, orange blossom water, and essential oils, this balm will keep chapped lips moist - naturally. Choose tube or tub.

Original (no scent or flavor) (OG)
Peppermint (PM)
Orange (OR)

\$2 - 0.15 oz. Tube (#104)

Facial Polish

Ground comfrey root and oatmeal remove dull skin and promote circulation, crucial for healthy skin. Honey, olive oil, and mineral concentrates nourish and quench your skin's delicate needs.

\$14 - 1 oz. jar (#105)

Tip:

Use daily as a cleanser or weekly as a mask.

Facial Toner

Fresh orange blossom water, aloe vera, mineral concentrates, and lime essential oil make this toner gentle, effective, and totally irresistible! Use to clean, tone, and hydrate your skin morning and night. Also makes a wonderful aftershave.

\$15 - 4 oz. bottle (#106)

Pauline: "Men like our products too..."

"Yeah, they just don't admit it and then steal ours!" Pam

Facial Moisturizers

Replenishing Face Cream (RFC) and Skin Repair Cream (SRC) contain over 20 fresh, hand crafted herbs and flowers in a blend of exotic oils and floral waters. This distinctive blend of pure botanicals rehydrates and nourishes all skin types.

The **Skin Repair Cream** has the added benefit of rosehipseed oil for mature or sun-damaged skin.

The face creams may reduce visible lines, increase skin elasticity, provide protection to skin. SRC may also help psoriasis, eczema, and other unusual skin conditions.

Replenishing Face Cream

\$20 - 1 oz. jar (#107A)

\$30 - 2 oz. jar (#107B)

Skin Repair Cream

\$20 - 1 oz. jar (#108A)

\$30 - 2 oz. jar (#108B)

Facial Elixirs

An aromatic potion of essential oils in aloe vera and almond oil work synergistically with extracts of calendula and chamomile to nourish skin while flower essences help to relax your mind. Apply as a facial moisturizer or sexy body adornment. May also be used as a massage oil. Enjoy!

Original Blend

\$15 - 1 oz. bottle (#109A)

Rose/Sandalwood Blend

\$15 - 1 oz. bottle (#109B)

Pauline: "Rose/Sandalwood is soooo sensual..."

"...Get a date, will ya?" Pam

Diffusers

Create your own aromatherapy environment at home, in your office, or your vehicle with pure essential oils and your diffuser. Your home, office, or car will never smell the same!

Each kit comes with three essential oils (0.5 oz. each).

Home Diffuser: (#110A)
(Lavender, Orange, Eucalyptus)

Car Diffuser: (#110B)
(Lavender, Peppermint, Grapefruit)

\$30 per kit

Tip:

If buying the car diffuser kit, please also use essential oils that will revitalize and rejuvenate to make sure you are kept awake while driving! **Wild Mountain Organics** provides Lavender, Peppermint, and Grapefruit essential oils for this reason.

Essential Oils

Choose any one of the essential oil scents listed below.

\$12 - 0.5 oz. bottle (#111)

Essential Oil Choices:

Eucalyptus (EU)

Lavender (LV)

Lemongrass (LG)

Peppermint (PM)

Grapefruit (GP)

Lemon (LE)

Orange (OR)

Essential Oil Travel Kit

The Essential Oil Travel Kit has everything you need to relieve tension, balance your body, and promote healing - at home or on the road.

Kit includes small vials of lavender, lemon, eucalyptus, peppermint, lemongrass, and orange essential oils, olive oil, and a small packet of goldenseal powder. Directions for use and historic and modern ideas for use are also included.

\$20 per kit (#112)

Tip:

Keep the Essential Oil Travel Kit in your purse and use it at work for a mid-afternoon lift, at home to relax, or on the road for everything else!

Insect Repellent

For those who want a natural alternative to the common insect repellent. Our spray contains a blend of known insect repellent essential oils mixed with our lavender spritz. The lotion contains the same moisturizing and nourishing combination of our Hand and Body Lotion with a blend of known insect repellent essential oils mixed right in.

\$12 - 4 oz. Spray (#113A)

\$12 - 8 oz. Lotion (#113B)

Pauline: "Peppermint essential oil is a nice topical alternative for headaches."

"Too bad it doesn't work on husbands." Pam

Conditioning Dog Shampoo

If you are like us, you love your dogs! We developed a conditioning shampoo that cleans, moisturizes, and soothes your dog because we wanted to pamper our pets the way we pamper ourselves. A combination of water, soothing lavender spritz, healing aloe vera, invigorating witch hazel, natural soap, and a special essential oil blend rounds out our conditioning shampoo. For those of you who like lots of lather - you're out of luck! (It's not needed anyway.) Your dog will be clean without the hassle of rinsing and rinsing and rinsing.

\$10 - 8 oz. Shampoo (#114)

Did You Know?

- ◆ Sniffing grapefruit helps curb cravings for sweets, according to a study at the Institute of Aromatherapy in Toronto. The grapefruit diet is back, but instead of eating grapefruit (not an altogether bad idea), sniff some grapefruit essential oil. **Wild Mountain Organics** has grapefruit essential oil in its *Essential Oil Travel Kit*. Or purchase it on its own. Simply put a couple drops on your wrist and sniff when that cake is placed in front of you.
- ◆ A recent study has shown that when men smell grapefruit, they find women look six years younger than they actually are. Our customers aren't quite sure if it works or not, but they don't seem to care and snap up some of our *Citrus Body Polish* and *Citrus Body Lotion*. Enjoy the scent and look younger!

Pauline: "Our products make excellent gifts for teachers, friends, everyone!"

"...Including yourself!" Pam

Having Trouble Deciding?

Afraid of Commitment?

Wild Mountain Organics offers sample sizes of our popular products available in the following packages:

Body Sample Pack (1 oz. Herbal Body Polish, 2 oz. Herbal Hand and Body Lotion, 2 oz. Fresh Floral Spritz) Please specify scents - **\$12 (#115)**

Ultimate Sample Pack (Both Body and Face Care Sample Packs) Please specify scents and Skin Repair Cream or Replenishing Face Cream - **\$30 (#117)**

Pauline: "We were both so excited to use all natural face products since we both have adult acne..."

"And we've never looked back or looked better!" Pam

Essential Oils

Essential Oils were mankind's first medicine. They are distilled from plants (including their respective parts such as seeds, bark, leaves, stems, roots, flowers, fruits, etc.), usually through steam distillation. Fresh Floral Spritzes are a byproduct. Producing the purest oils, used by **Wild Mountain Organics**, can be very costly because it requires several hundred pounds, or even several thousand pounds of plant material to extract one pound of pure essential oil.

As the regenerating, oxygenating, and immune defense properties of plants, essential oils are so small in molecular size that they can quickly penetrate the tissues of the skin (the largest organ of absorption in the body).

Essential oils are very powerful antioxidants. Essential oils are **anti-bacterial, anti-cancerous, anti-fungal, anti-infectious, antimicrobial, anti-tumoral, anti-parasitic, anti-viral, and antiseptic.**

Essential oils are aromatic. When diffused, they provide air purification. Essential oils also promote emotional, physical, and spiritual healing.

Scents

Wild Mountain Organics uses essential oils in its products. No synthetic fragrances are ever used. In addition to reaping the benefits of the specific properties of essential oils, the fragrance is also all natural, nourishing your body, mind, and spirit. Fresh Floral Spritzes, because they are a byproduct of the distillation process, also provide many of the same benefits as their essential oil.

Sources of Flowers and Herbs

Many of our flowers and herbs are organically grown and lovingly hand collected locally. They are prepared and used immediately after harvest in such products as our Replenishing Face Cream, Skin Repair Cream, and Facial Elixir, or carefully dried for later use in products such as the Herbal Body Polish. All of the essential oils we use are natural plant based oils which carry with them remarkable healing capabilities and aromatic qualities.

Organic vs. Non-Organic

Most of our flowers and herbs are organically grown or wild crafted. We support local small farms and harvest in the wild using careful environmental awareness so as not to damage the native stands or alter ecosystems. Some of our growers are not Certified Organic due to the cost and time of the lengthy process, however, they follow organic practices. By using organic ingredients as much as possible we support the sustainability of our environment as well as protect your body from harmful herbicides and pesticides.

Plants which are grown organically carry micronutrients and minerals which nourish your body and provide building blocks for optimal health and vitality.

Use Discretion

Your skin is like a sponge which absorbs what is applied to it.....for example transdermal estrogen or nicotine patches. Take the challenge..... read the ingredient lists of your personal body care products now. If you would not ingest your body care products then we suggest you not ingest them through your skin. Be smart and make the move to organic.

Pauline: "I love the chemistry of essential oils!"

"You are such a nerd." Pam

Salt vs. Sugar

The benefits of salt as a body polish and exfoliant far surpasses that of sugar.

Salt is:

- Anti-inflammatory (excellent for sore joints and arthritis)
- Antiseptic
- Mineral rich
- Stress reducing (physically and emotionally)
- Detoxifying and much more

Sugar is an exfoliant, but it is highly refined and does not contain the therapeutic benefits of salt.

Ingredients used in our products:

- New Zealand Sea Salt, Redmond Sea Salt, and Epsom Salt (all salts are excellent exfoliators and are anti-inflammatory)
- Olive Oil
- Essential Oils
- Aloe vera
- Almond oil
- Vitamin A
- Shea butter
- Jojoba
- Castor oil
- Flower essences
- Oatmeal and Comfrey Root (Both remove dull skin, promote circulation, nourish and heal.)
- Honey (Nourishing and quenching for skin.)
- Witch hazel (good for toning and clarifying skin)
- Pure Floral Spritzes (byproduct of the distillation process of essential oils)
- Beeswax
- Vitamin E and Grapefruit seed extract (both act as natural preservatives - no synthetic preservatives are ever used in our products.)
- Calendula and chamomile extracts

What sets us apart from other organic products:

- Our commitment to natural/organic ingredients.
- Our commitment to using only natural preservatives. All body care products have a shelf life regardless of the preservatives used. Once you start using a product and expose it to air, your fingers, etc. you introduce bacteria. With this in mind, we chose not to muck things up with unnatural preservatives. **Wild Mountain Organics** uses grapefruit seed extract and Vitamin E as preservatives in its products.
- Our products are scented with essential oils. No synthetic fragrances are used. We also rely on the antibacterial, antifungal, and antiviral properties of the essential oils.
- Our ingredients are of the highest quality.
- Our packaging is eye-catching, beautiful, and practical.

**THANK YOU FOR THE OPPORTUNITY
TO HELP YOUR ORGANIZATION
WITH ITS FUNDRAISING EFFORTS!**

Wild Mountain Organics is dedicated to ensuring high quality products that are exceptional and sustainable. We are members of the Campaign for Safe Cosmetics and are always looking for ways to improve our products for our customers. Please forward any suggestions you may have.
